We can help to

Predict the match results

Ø   Who is going to win the game?
Ø   What models have the best information?
Ø   Can we win the FiveThirtyEight prediction challenge?

CATS researchers are looking at how to make probabilistic predictions of sporting events including NFL American Football matches. The best way to make a prediction depends on what exactly you are aiming to achieve: what is your question?

Ed Wheatcroft (2019). A profitable model for predicting the over/under market in football. *International Journal of Forecasting*. **Forthcoming.**
