LSE-CATS Seminar at ECMWF

16 May 2006, 10.45 - 16.45, Mezzanine Committee Room

Programme

10.45 - 11.15:	Lenny Smith	ntroduction and overview
11.15 - 12.00:	Kevin Judd	2020 data assimilation
12.00 - 13.30:	Lunch	
13.30 - 14.15:	Jochen Bröker	Evaluating probabilistic forecasts
14.15 - 15.00:	Lenny Smith	
15.00 - 15.30:	Tea / Coffee	
15.30 - 16.15:	Liam Clarke	
	All	ound table discussion on end-to-end

LSE-CATS is the Centre for the Analysis of Time Series (CATS) at the London School of Economics (LSE). CATS brings together a unique mix of internationally recognised expertise both in deterministic non-linear modelling and stochastic non-linear modelling, as well as a powerhouse of statisticians expert in traditional statistical methods and a number of physical scientists with experience in time series analysis.
During the seminar recent results and new ideas will be discussed, with particular focus on insights gained from experiences with ECMWF forecasts.

16.45:
