

Social science helps us

Use expert judgements

- ∅ How can model outputs mislead decision-makers?
- ∅ How can human and model expertise be combined?

Our collaborations with philosophers in LSE's CPNSS and elsewhere have been very fruitful.

In one piece of work, we looked at the role of expert judgement in assessing confidence in models and planning for climate adaptation.

E.L. Thompson, R. Frigg and C. Helgeson (2016). Expert Judgment for Climate Change Adaptation 83(5):1110-1121.
