

Background PhD-study

Start in September 2011 (FWO-project)

Building on EU Kids Online, focus on coping

Multi-method approach

Research questions

RQ1: awareness & harm (impact)

Risk perceptions? What harmful

Role of individual & social context

Research questions

RQ1: awareness & harm (impact)

Risk perceptions? What harmful

Role of individual & social context

RQ2: preventive measures & coping strategy

How to avoid and deal with online risks?

Role of individual & social context

Research questions

RQ1: awareness & harm (impact)

Risk perceptions? What harmful

Role of individual & social context

RQ2: preventive measures & coping strategy

How to avoid and deal with online risks?

Role of individual & social context

Challenge 1

Multi-method approach

Background & inspiration

EU Kids Online 2010 survey (N=1005 in BE)

NCGM 2014 survey (N=500 in BE)

Quantitative analyses

Flemish school survey 2012 (N=2046)

Qualitative analyses

Belgian EU Kids Online data children (N=38; 20 INT + 6 FG)

Belgian NCGM data adults (8 parents, 6 teachers)

Flemish fieldwork study (39 children, 5 school staff)

Challenges

Thanks for your input!
